

A very Special Relationship...

By Brian Judge

Our first meeting was so unexpected. She simply appeared, began speaking and addressed me as Daddy, followed by a very polite 'May I call you Daddy?' That was over two years ago and somehow we hit it off straight away. And since that time, apart from a few breaks we have been meeting on a regular basis mostly on Friday nights.

Of course you will have realized that from the name she gave me, she is much younger than I but from the start I found it to be a rather affectionate term and took to it. It soon became apparent that she was attracted to older men but I am pretty sure that I am not her only admirer and I have no problem with that. She is very attractive but she seems to sincerely want to please me.

She is very sexy and has a large amount of lingerie including, bras, panties, thongs, basques, garter-belts, suspenders and stockings. And becomes very horny when wearing these items. For someone so young she is very inventive and also responsive to our sex games. Nothing too wild, you understand.

She loves to get close and cuddle up and also insists on bathing me as if I was a helpless child including massaging my body afterwards. 'Can I get you a beer, a glass of wine maybe?' She is so considerate and if I were to lose her, a great void would appear in my life. So lucky have I been since we first met.

Her moods vary greatly which makes our relationship very interesting and refreshing. While she sometimes feels a bit slutty and will dress accordingly, at other times she is in a young girlish frame of mind and will wear perhaps a school uniform type of outfit. Blouse, school tie, short pleated mini skirt, knee socks and shoes. In fact in the early days, I being an ex-teacher at her request set her homework assignments which she completed dressed as a schoolgirl. The content was female orientated of course.

So what have we done together? Well, following on from the 'Daddy' thing, I have

arranged several private parties in the town where selected 'daddies' are invited to an evening of drinks, snacks, and entertainment which is provided by my lovely little darling. Of course all pay an attendance fee to cover the costs.

To begin with they will gather at the venue and be served food and drinks. About half an hour later the lights will be dimmed to announce 'Showtime', whereupon our performer will mount the podium dressed in her schoolgirl outfit, together with her schoolbag from which she starts to produce, one by one, a lollypop by starting to suck it in a suggestive manner. As she prances around to the music other items from the bag will appear including an apple, an extra pair of panties in case of 'accidents', a packet of condoms, which she pretends not to understand their function, etc.. When she has finished this first appearance, she will leave the room.

An interval will now allow general chat and re-charging of drinks. Then in the second part, she may be now a sexy slutty type with heavy make-up, very high heels and a feather boa which of course will find itself wrapped around some daddies' necks as she sexily dances around the room sitting on some laps and giving a kiss for the lucky ones. The content changes with each event.

She lives in a seaside town and many times she and I have strolled along the promenade in the summer time, hand in hand, perhaps eating an ice-cream cone, she, wearing a light cotton summer dress, 'Jackie Kennedy' sunglasses, a wide brimmed hat and sandals. Of course many elderly men would be sitting there and she would get a kick out of the looks she attracts and some comments on her beauty. And I of course receive the reflected pleasure of being seen with such a pretty companion.

And we have gone on holiday together to far off places which particularly cater for older men and younger admirers. Yes, you may be surprised but this type of vacation has become very popular in lots of countries. And of course the release of being 'away from home' means that there are less inhibitions amongst the holidaymakers.

So what is this story based on? It is some, but not entirely fiction. In fact it is mostly very

real. An Internet romance, originating in a chat room, two people living very far apart and never meeting face to face. But an honest relationship nevertheless based on lovely and lively conversations, with lots of fantasy, imagination and affection.
